MEMORANDUM

TO: Instructors and Lab Leaders
FROM: Mimi *Mimi*
RE: Attendance in next colloquium

Would you please announce to your classes and again in all the separate lab sections that Ron Takaki from ESP at Berkeley (originally from Hawaii) will give a "talk" (if you think "colloquium" might scare the students away). Please give the information on the blackboard. Maybe extra credit or something could be arranged so that we could get the ES students to attend. Any other inducements you could offer would be appreciated.
